Choose: A quick death...or a slow poison...About to be executed for murder, Yelena is offered an extraordinary reprieve. She'll eat the best meals, have rooms in the palace - and risk assassination by anyone trying to kill the Commander of Ixia. And so Yelena chooses to become a food taster. But the chief of security, leaving nothing to chance, deliberately feeds her Butterfly's Dust - and only by appearing for her daily antidote will she delay an agonising death from the poison. As Yelena tries to escape her new dilemma, disasters keep mounting. Rebels plot to seize Ixia and Yelena develops magical powers she can't control. Her life is threatened again and choices must be made. But this time the outcomes aren't so clear... Biographie de l'auteur

Born and raised in Philadelphia, Pennsylvania, Maria attended 12 years of catholic school before going to Penn State University to study Meteorology. Earning a Bachelors of Science degree in Meteorology, Maria discovered, much to her chagrin, that forecasting the weather wasn't one of her skills. She found employment in the environmental field as an air quality scientist, and it was during those years that she began writing. After writing many science fiction short stories, Maria started Poison Study, her first novel, about a food taster. Her research on food tasting methods with an expert chocolate taster, her husband, turned out to be a delicious bonus while writing Poison Study. Maria has a brown belt in Issinryu Karate, and has enjoyed acting out the complex fight scenes in her books. Playing volleyball, scrapbooking, and reading are her other hobbies.
