This special and important photography book presents, for the first time, the very best contact sheets created by Magnum photographers. Contact sheets tell the truth behind a photograph. They unveil its process, and provide its back story. Was it the outcome of what a photographer had in mind from the outset? Did it emerge from a diligently worked sequence, or was the right shot down to pure serendipity a matter of being in the right place at the right time? This landmark publication provides the reader with a depth of understanding and a critical analysis of the story behind a photograph, the process of editing it, and the places and ways in which the selected photographs were used. For anyone with a deep appreciation of photography and a desire to understand what goes into creating iconic work, Magnum Contact Sheets will be regarded as the definitive volume. With 435 illustrations in total, 230 in colour, including over 3,600 frames on 139 contact sheets.
